

## Tractor Rubber-tired Articulated Steering Multi-purpose (TRAM)

### DESCRIPTION

The Tractor Rubber-tired Articulated Steering Multi-purpose (TRAM) is a diesel-powered, four-wheel drive, rubber-tired, articulated steering tractor capable of operating in rough terrain and in 60 inches of water. The TRAM is outfitted with a multipurpose bucket and a 10,000 pound forklift attachment.

PROCUREMENT PROFILE:	FY00	FY01
<i>Quantity:</i>	<i>125</i>	<i>125</i>

### OPERATIONAL IMPACT

The TRAM is configured primarily as a scoop loader and secondarily as a forklift. In addition, the TRAM will accept other attachments (i.e., snowplow, snowblower, brush clearer and sweeper broom) to enhance its role as a combat multiplier. The TRAM will also be capable of being transported by CH-53E and C-130 aircraft.

### PROGRAM STATUS

The contractor remanufacture strategy was approved in FY99. This will allow approximately 125 TRAM to be remanufactured per year through FY03 with approximately 50 to be remanufactured in FY04. The re-remanufacture will extend the TRAM service life for 10 years.

### DEVELOPER/MANUFACTURER

John Deere Co
